***NOTE.** Itemized statements should show a breakdown of the time expended: (a) reviewing record, (b) performing legal research, (c) performing other work (stating nature) preliminary to preparation of brief and (d) preparing brief. While time expended is an important consideration in fixing fees, the Court also gives great weight to other factors, such as the difficulty of the case, the diligence with which the assignment was completed, and the competence and skill of counsel in the performance of services. Please note that commencing April 1, 2023, the hourly rate for appellate court representation is \$158. For services rendered prior to April 1, 2023, the hourly rate for appellate representation is \$75. The limit on compensation without a showing of extraordinary circumstances is \$10,000. Claims for payment above the statutory cap must be accompanied by an affidavit in support of the excess fee claim.
